

# VIP Virtual Service

Introducing an end-to-end VIP Virtual Service. By opting for this new service, you will get a dedicated relationship manager to help you submit your DataFlow Primary Source Verification application through an online video call at a convenient time chosen by you. Alternatively, you could opt to send all your documents to your VIP Virtual Service Relationship Manager who would be submitting your application on your behalf.

Moreover, our VIP Virtual Service now saves you from the trouble of searching for a third-party or unauthorised typing centres to process and submit your application.

The service comes with a fee of **USD 200** and does not include the package / verification service fee that you need to pay as per the selected package and number of documents included.

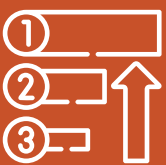

## Role of your VIP Virtual Service Relationship Manager

An end-to-end management and accurate submission of your Primary Source Verification application with DataFlow.

An expert guidance on what documents to submit and packages to select, preventing any delays in processing your application.

Keeps you updated regarding your application process throughout the journey, including application status, and answers to your queries - saving your valuable time from further follow-ups.

Ensures your application with us is prioritised over other regular applications, giving you faster results.

Keeps you informed if the application is taking longer than the agreed turnaround time or requires any missing/additional documents.

Assists you in downloading the final Primary Source Verification report once ready.
